

Drench Plus

DRENCH PLUS
VETSOUTH

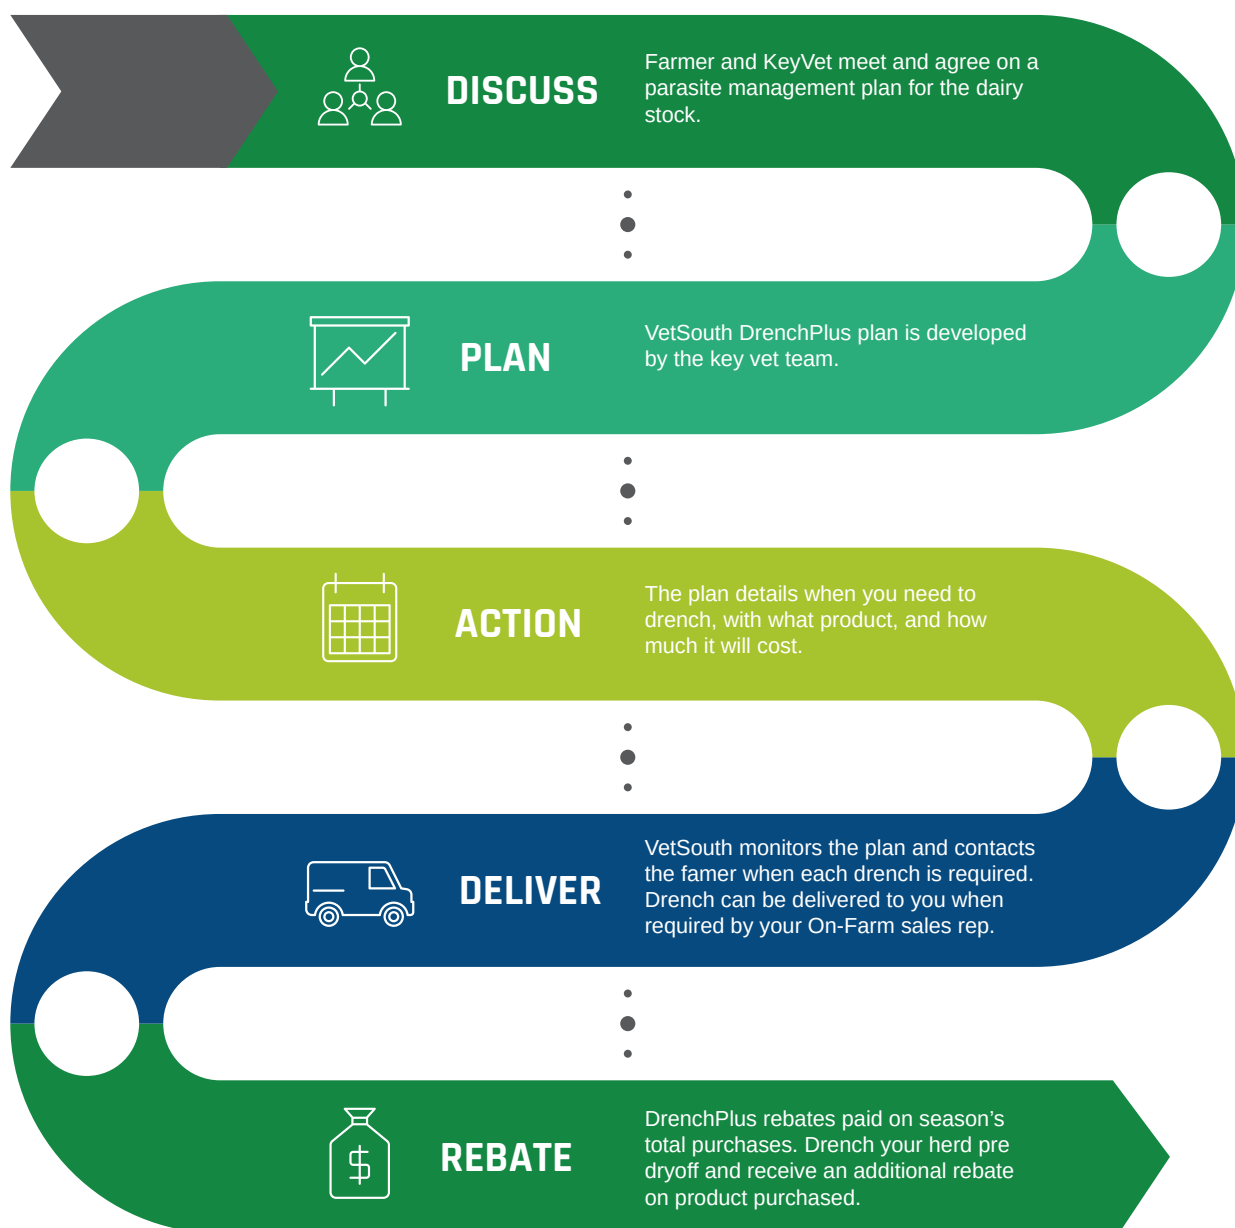

Monitoring programme

DrenchPlus is a service aimed at improving herd productivity, while reducing production costs.

Endoparasite management is a complex issue. For this reason we developed the **DrenchPlus** programme with the makers of *Genesis*, *Eclipse*, *ArrestC*, *Dectomax*, and *Eprinex* to provide effective management of endoparasites. These products are proven performers from reputable manufacturers.

If you think this may be of benefit to your farm, then talk to us today!

Account billed at each purchase for payment 20th month following invoice. Rebate paid on total drench sales at end of season.
