Discuss  
Farmer and KeyVet meet and agree to a parasite management plan for the dairy stock.

Plan  
VetSouth Drench Plus Plan is developed.

Action  
Plan details when you need to drench, with what product and how much it will cost.

Deliver  
VetSouth monitors plan and calls farmer when each drench is required. Drench can be delivered to you when required by your On Farm Sales Rep.

REBATE  
DrenchPlus rebates paid on season’s total purchases. Drench your herd pre dry-off and receive an additional 7% rebate on product purchased.

BILLING (5% rebate)  
Account billed at each purchase for payment 20th month following invoice.

VetSouth Drench Monitoring Programme  
DrenchPlus is a VetSouth client service aimed at improving herd productivity while reducing production costs.

Endoparasite management is a complex issue. For this reason we developed the DrenchPlus programme with the makers of Genesis, Eclipse, ArrestC, Dectomax, Topline, Niltine LV and Eprinex to provide effective management of endoparasites. These products are proven performers from reputable manufacturers. If you think this may be of benefit to your farm, then talk to us today!
